Subject: Application for Web Developer / AI Integrator – Eric Dominic Momo

To the Hiring Manager / Project Reviewer,

I am writing to express my strong interest in bringing my web development and AI integration skills to your team. As a current B.S. IT student at the **University of Cebu**, I have built a solid foundation in both design and functional programming, specializing in creating user-friendly digital experiences.

My recent portfolio work highlights my ability to bridge the gap between traditional web development and modern AI. Specifically, I have successfully:

- **Designed and Prototyped:** Used **Figma** and **Canva** to create high-fidelity user interfaces.
- **Developed Full-Stack Solutions:** Implemented responsive sites using **HTML, CSS, JS, and PHP**.
- **Integrated AI Automation:** Built and deployed a logic-based chatbot using **Flowise**, ensuring seamless front-end integration and technical documentation.

I take pride in my "Attention to Detail" and "Innovative Thinking," ensuring that every project is not just functional but also intuitive for the end-user. I am eager to apply my technical stack—ranging from Python to PHP—to contribute to your upcoming projects.

Thank you for your time and for reviewing my portfolio submission. I look forward to the possibility of discussing how my skills can benefit your organization.

Best regards,

Eric Dominic Momo
